RE: Peer Motivation

To whom it may concern,

I am Ms T Govender, Mr Lecheko is my colleague in the department of Environmental Health. I started employment at MUT in February 2018. Mr Lecheko offered me academic support. He advised me on various issues relating to teaching, research and administration. He was always willing to share resources and his experiences as an academic in higher education.

In addition, Mr Lecheko provided moral support which aided me in the adjustment phase of being a new academic. He is always willing to assist other colleagues.

Mr Lecheko has indeed been of great help to me on my journey in academia.

Yours sincerely,

Ms Trishka Govender

Lecturer EH Department MUT
